Higher Uses.

Among the many problems offered by a new country for solution none are more interesting or important than those resulting from new combinations of soil and climate, with their attendant surprises in the way of richer developments in agriculture, horticulture and arboriculture. Even in the very old parts of America and Europe new varieties and almost new species of grains, fruits and flowers are being brought out by careful cultivation and attention. The country east of the mountains has so small a proportion of cultivatable land that what is worked should be put to the highest possible use, and we can think of no business in life more delightful than such experiments. Large capital is not necessary, for a child with a foot square of suitable soil may bring out a discovery of inestimable value.

Washoe county has already shown wonderful superiority in very many things. For example her potatoes and apples are unequalled, her condition seems to be unusually well suited for alfalfa, her butter rivals that of Ireland, her beef and mutton are rich and juicy, while her wheat and wool equal any in the world. But who knows what can be done here with chickens and other fowls. Where is the limit to currant production and other small fruits. What a country this is for curing meats. Washoe hams and bacon could be sent all over the world as a rare luxury if properly handled. There are markets for vegetables and berries that have never been filled yet and they are still growing. Half of this valley could be put into currant bushes employing five thousand hands to cultivate and harvest the fruit, drying and shipping and making wine. That would make business for the cooper, the tailor, and every other man. Don't let us stop to argue about not having a place to sell for we have the world for a market and we have as good salesmen as any other country. Who knows what could be done with the wild geese rye-raised by the late Mr. Johnson. If it was advertised it could be sold for a dollar a pound as fast as it grew.

The people in the valleys north of us have a fortune in oats alone. There is no country outside of Scotland that begins to raise such oats. Indian Valley has given people a new understanding of the word "oats." Its product is so healthy, so clean, so fine in flavor, and so heavy in proportion to bulk, that it is thought to be the superior of anything known. There is no end to the opportunities open in this land of untried energies, and if the people will study how to put their land, their time and their labor to the best possible uses, this will be headquarters for a great many things that we now buy from outsiders and ship in. If we can raise a better quality than any one else there will be no trouble about getting them to come here after it.

The pigeons that are becoming so common in Reno are a great nuisance without being of any compensating benefit. They are filthy, soiling everything they touch, carrying bed bugs and lice all over the town and making disagreeable noises at unreasonable hours. Worst of all, their owners have no way of confining them to their own premises and monopolizing the filth to themselves, but they are all over town.

JAMES MCKINLEY of San Francisco, brother of Congressman McKinley of Ohio, has been recommended by the Pacific coast delegation for Minister to the Sandwich Islands.

A Quarterly Dividend. New York, April 18.—The Directors of the Oregon Improvement Company have declared a quarterly dividend of one per cent. on the common stock preceding the quarterly dividend, at the rate of one and one-half per cent.

No News of the Danmark. New York, April 18.—The steamer Albatross arrived from Gibraltar this morning and brought no news of the wrecked Danmark's passengers.

APPOINTMENTS.

Execution of a Young Wife Murderer.

A SUICIDE BY MORPHINE.

Two Men Caught in a Rope and Instantly Killed.

OLD HOMESTEAD BURNED.

A Mysterious Theft of Fifteen Thousand Dollars in Gold.

[ASSOCIATED PRESS DISPATCHES TO THE GAZETTE.]

Instantly Killed.

New York, April 18.—Two men, Riley and Early, who were taking down telegraph wires this morning, were jerked out of a window, being entangled in a rope attached to a falling pole, and both instantly killed. After the removal of the dead men the work of removing the wires went on as usual. Other gangs continued the work that was being prosecuted on Broadway yesterday, the companies' gangs keeping ahead of the Mayor's men and trying to save their wires as far as possible.

Wife Murderer Hanged.

HARTFORD, Conn., April 18.—J. H. Swift was hanged this morning for the murder of his wife in 1887. She was forced to leave him on account of his dissipated habits and cruelty, and he murdered her because she refused to return to him. His sister made a strenuous effort to secure a commutation of the sentence. The Legislature passed a bill making the penalty imprisonment for life, but the Governor vetoed it. The Senate then passed it over the veto, but the House failed to do so. The marriage occurred six years ago, when Swift was 19 years old.

A Mysterious Theft.

BRAINARD, Minn., April 18.—A package containing \$15,000 in gold has mysteriously disappeared from the office of the Northern Pacific Express Co. of this city. Louis Hopman, the night clerk, received it from a train at 1:45 A. M. yesterday. There were four sacks of specie and two contained \$15,000 each in gold and two \$500 each in silver. The money was to be used in paying the employees of the road. Hopman says he carried all the specie into the vault and turned the combination. A half an hour later he discovered one of the bags of gold missing and at once notified his superior. Hopman is regarded as honest and faithful.

Death by Morphine.

CHICAGO, April 18.—A gentleman who has been stopping at the hotel Richelieu since April 10th, and who was registered as Sydney Walters, suicided with morphine in his room last night. At the inquest this morning, Mrs. Walters who came from Cleveland on receipt of a message sent from here last night, took the stand and testified that she had been married to Walters about six months. He was an Englishman and a London newspaper man of considerable prominence. She did not know whether or not he was related to John Walters, the proprietor of the Times.

A Damage Suit.

BALTIMORE, April 18.—Louis Elmer & Sons have begun suit against Fleischman & Co. for \$100,000 damages. They claim that because they refused to make a combination with Fleischman to put up the price of yeast the latter have ruined their business by selling vinegar to Elmer & Son's customers below cost.

Our University Arms.

WASHINGTON, April 16.—The Secretary of War has issued orders to the Chief of the Bureau of Ordnance to send to the State University of Nevada a complete set of arms and accoutrements for the use of the cadets at that institution. They were accordingly shipped last night and will reach Reno in about ten days.

The Carroll Homestead Burned. FREDERICK, Md., April 18.—The Carroll homestead at Knoxville was burned on Tuesday. The tract upon which the old mansion stood was taken up in 1727 by the father of Charles Carroll of Carrollton, and embraced 15,000 acres.

A Material Increase.

Boston, April 18.—The hearing of the petition of the American Bell Telephone Company for an increase of \$10,000,000 in its capital stock was begun at the State House this morning.

A Lofly Tumble.

NIAGARA FALLS, April 18.—J. Munday, an Italian employed on the suspension bridge, this morning fell to the river below and was drowned.

Whitney's New Navy.

WASHINGTON, April 17.—Recent reports of the maneuvers of the British naval fleet contain some matters not entirely reassuring with respect to some of our new naval vessels. In these maneuvers about six vessels of the Archer type participated. The result was a disagreeable surprise. It was found that in a moderately heavy sea their guns were so unstable that they could not be directed with any approach to accuracy of fire. They were also very wet ships. These defects are supposed to result from the excessive weight of the ordnance, and it was recommended that the six-inch be replaced by five-inch guns, and that the anchors be moved further apart. The significance of the report to naval officers here lies in the fact that the new gunboat Yorktown is patterned after the Archer and will carry the same calibre and weight of ordnance. Failure has also attended the efforts of the British constructors to build a twenty-knot ship, of which the Navy Department here is attempting to build two under direction of an Act of Congress. The Medea, which was built for a twenty-knot ship, has never exceeded nineteen knots, but has developed more than the estimated horse-power—an intimation to constructors here that it is not possible to drive a vessel of that length at twenty knots. The British authorities have taken the same view, and will build another set of these boats of greater length. Other vessels of the same type have failed to develop anything like the necessary 9,000 horse-power, so that the promise of success for our boats is not bright.

Effect of Strong Drink.

SPRINGFIELD, Mass., April 18.—A West Farms farming hamlet was the scene of a horrible double tragedy this morning. Joseph King, a wealthy and well-known citizen 73 years of age, was shot and killed by Edgar King, his eldest son, and the house was fired. The murderer went twenty steps from the house and then shot himself. The murder and suicide are traceable to an unbalanced mind, caused by dissipation. A letter to a friend shows that the deed was premeditated, with the addition that he intended to kill his two aunts also. He was prevented from the last, being unable to get into the room in which they slept. The deed was committed at two o'clock in the morning, the murderer firing three shots into the body of his father while asleep.

Probable Misrepresentation.

BOSTON, April 18.—Tommy Meadows, the Australian, is anxious for another go with Paddy Duffy. In a letter Meadows says Duffy is a quitter; that in the second and thirty-first rounds he wanted to stop fighting. The Australian is confident he can defeat Duffy, for he says if any Boston club will give him a purse he will fight Duffy ten or fifteen or twenty rounds, and if he does not put the Boston man to sleep in that time he will be satisfied to lose the purse. Boston sporting men do not take any stock in Meadows' statement that Duffy wanted to quit. Letters received in this city from Californians who witnessed the battle show that Meadows is the one that wanted to quit and not Duffy.

Attempted Train Wrecking.

GRAND RAPIDS, Mich., April 18.—An attempt was made last night to wreck the west-bound train on the Chicago and West Michigan railroad which leaves this city at 8:10 P. M. While approaching Grandville an open switch was encountered and the engine and all the cars except the rear one ran off the track, the engine being completely demoralized. No one was injured. The connecting rod of the switch had been cut and the switch moved only half way, so the train would not go on to the siding.

Street-Car Strike.

ST. PAUL, April 18.—The cars were started on the West Seventh street line this morning, and were guarded by the police. The crowds hooted and jeered, and one man threw a bunch of firecrackers under the feet of the car horses. No serious trouble is anticipated. The street-cars are running on several lines. There were several small fracas until the rain dispersed the crowd.

A Fast Liver.

PITTSBURG, April 18.—Sydney Walters who suicided in Chicago, came here from Philadelphia. He did newspaper work, and left two months ago. He kept the company of actresses and spent money freely.

CHICAGO, April 18.—A Pittsburg special says young Walters was the husband of Estelle Clayton, an actress.

Robbed and Bound.

FLINT, Mich., April 18.—Mrs. Amanda Wallington of Jackson was found bound and gagged on the railroad track this morning. She claims to have been robbed at the point of a revolver by an unknown highwayman, and placed on the track in the condition found.

French Politics.

PARIS, April 18.—President Carnot to-day opened the exhibition of the revolutionary relics in the Louvre. The police searched the residences of Deputy Turgot and five other members of the Boulangist party for documents in relation to the Boulangist campaign.

Federal Appointments.

WASHINGTON, April 18.—The President to-day appointed Edward S. Lacey of California as Comptroller of Currency and Timothy G. Phelps of California as Collector of Customs at San Francisco.

Academy of Sciences.

WASHINGTON, April 18.—At the session of the National Academy of Sciences to-day reports were heard of the miscellaneous business transacted and a number of papers read.

Five Men Drowned.

BAIRDOROUGH, Ga., April 18.—At the Alabama Midland Crossing of Chattahoochee, two boats containing eight men each, capsized, drowning five of them.

The Boomers Moving.

ARKANSAS CITY, April 18.—At five o'clock this morning the boomers were getting ready to cross the Cherokee strip. Nearly 30,000 are here. They have been ordered to move in an orderly manner by the established trails. If any depredations are committed while in line they will be stopped and the guilty ones turned back. The procession will be accompanied by from twenty to thirty reporters on ponies. United States Commissioner Russell allowed two men to construct bridges at Salt Creek and Chillicothe Creek and charged the boomers twenty-five cents to cross. The old ferry boat on Salt Fork, which has been idle for years, will be brought into service.

Routine Business.

NEW YORK, April 18.—The Northern Pacific Directors to-day only transacted routine business. The Executive Committee made no report on the Wisconsin Central proposition, but when the report is ready a special meeting will be called.

The Sugar Market.

LONDON, April 18.—Crushed sugar excited. Everything offered sold twenty minutes after the market opened. Prices higher.

Parnell Honored.

EDINBURGH, April 18.—The Town Council has decided to confer the freedom of the city upon Parnell.

Bar silver, 92 1/4.

REJECTED NOMINATIONS.

Halstead May Yet Succeed Senator Payne. The Boston Traveller says: When Andrew Jackson became President of the United States he appointed on the 21st of March, in 1829, after the Senate had adjourned, Isaac Hill of New Hampshire as Second Comptroller of the Treasury. Isaac Hill was the editor of the New Hampshire Patriot, at that time one of the leading Democratic papers of the country. He wielded a vigorous pen, was an intense partisan and made bitter enemies by his editorial utterances.

When at last the Senate came to act on his nomination in May, 1830, his enemies resolved to punish him for his attacks on them, and so, rejecting his nomination, sent him home to New Hampshire to rejoin. Eighteen months later, however, Isaac Hill returned to Washington as a member of the body that had rejected him for the Second Comptrollership. On August 1, 1831, during a recess of the Senate, President Jackson appointed Martin Van Buren Minister to Great Britain. Mr. Van Buren had bitter personal enemies in the Senate, of whom Daniel Webster, Henry Clay and John C. Calhoun, then its presiding officer, were the chief. They decided to punish Van Buren and humiliate him, so when his nomination came to the Senate they compassed its rejection and brought their personal and political enemy home.

They broke a Minister but made a Vice-President and a President. Republican Senators who have been attacked by Editor Murat Halstead may keep him out of the German Mission, but Henry B. Payne's term in the Senate expires March 3, 1891, and stranger things have happened than that Murat Halstead should be his successor.

A Big Water Flow.

A 10-inch bore well in the Colmena orange orchard, six miles south of Marysville, on the line of the California & Oregon railroad, has tapped a copious vein of water at the depth of eighty-five feet. The water rises to within ten feet of the surface. It is thought that one good pump will raise enough water from this well for the irrigation of the entire orchard of 100 acres.

Greek Drapery.

Greek drapery is driving out the Empire style for dresses. The dress is allowed to fall from the neck to the instep with only the interference of a loose girdle, and it is caught up at the side to show a silk petticoat with the regular Greek pattern.

By leaving orders for wood at the N. & C. R. R. office, Folsom & Wells' or M. Nathan's you will get good wood and good measure.

The Foul Mouthed Blackguards.

Mayor Byington of Santa Rosa, Cal., has issued a dodger which reads: "Any vulgar or profane language or rowdiness against the public peace and dignity of Santa Rosa on the public streets will be punished with the extreme penalty of the law. An example must be made of offenders. Innocent amusement is afforded to all. Hoodlums will be suppressed at any cost."

Americans Preferred.

At the Alhambra in London the new military ballet introduces the troops of different nations. Their reception varied greatly, but the most popular of all, according to the morning papers, were the American soldiers. France came next, then Italy, while both Germany and Russia were roundly hissed.

A Rapid Increase.

Two years ago Mr. Sisson put seventeen carp in a large pond near his place in Shasta county, Cal. They increased so rapidly that he had to draw off the water last week and kill several thousand fish.

A Life Made Miserable.

By dyspepsia is scarcely worth the living. A capricious appetite, heartburn, puzzling nervous symptoms, increasing action of the heart after eating, sinking of the abdomen between meals, and flatulence after, are among the successive indicia of this harassing complaint. Two things only are needful for its removal. A resort to Hostetter's Stomach Bitters, and persistence in its use. These remedial measures being adopted, a cure is certain. Taken immediately before or after meals, this great stomachic promotes secretion of the gastric juices, the natural solvent of the food. The nervous and bilious system consequent upon chronic indigestion disappear as the complaint gradually yields to the corrective and invigorating influence of the Bitters. Appetite returns, sleep becomes more refreshing, and as a sequence, the body is sufficiently nourished, muscular power increased, and the mind grows sanguine. Use the Bitters for chills and fever, and rheumatism.

San Francisco Meat Market.

Mr. A. T. Fields, one of the leading merchants of Coalfax, Iowa, says that Chamberlain's Cough Remedy is the best cough preparation he ever used and recommends it to all without hesitation. Sold by Osburn & Shoemaker.

A person is seldom sick when their bowels are regular and never well when they are irregular. Bear this in mind and keep your bowels regular by an occasional dose of St. Patrick's Pills. Sold by Osburn & Shoemaker.

This is the season of the year when the raw, cold winds create and havoc with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dabney's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Fliniger.

A Scrap of Paper Mayes Her Life

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time. She weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 150 pounds. For further particulars send stamp to W. H. Cole, druggist, for Smith. Trial bottles of this wonderful Discovery free at S. J. Hodgkinson's.

Oregon is one of the most productive States in the Union. Its vast mineral resources contain gold, silver, copper, iron and coal. Its immense tracts of grazing land support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being in some instances the largest in the world. Among the useful and valuable products of the Willamette State may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the back and kidney difficulties. It is purely of vegetable composition and never fails. Sold by William Fininger.

Enepesep.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee the Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion, and out Dyspepsia, and install instead Enepesep. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and 1c per bottle by S. J. Hodgkinson, druggist.

It should be generally known that Dr. Henley's Dandelion Tonic cures a heavy appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and weakness, and will infuse new life and strength into the weakest invalid. Sold by William Fininger.

HINTS TO TOURISTS.

Advice to Eastern People Who Want to See a Grand Country.

The Homer Index says: During the next two months the State will be flooded with tourists who want to see the grand sights of the Pacific coast.

There are at least a dozen excursion parties under way, and they will all probably try to get to Yosemite by the hardest route that can be found.

Tourists always build up obstacles, and then go home and brag about how hard it was to climb over them.

The tourist who has come here to see the country and get a comprehensive idea of its grandest features should stop at Reno, take the V. & T. and C. & O. roads south; then the Hawthorne stage to Bodie, 37 miles, where, if he be an intelligent person, he will find much to interest him; visiting Mono Lake, the "Dead Sea of America," and viewing its volcanic wonders and sublime natural surroundings. Thence to Landy, 25 miles, by Orrin Miller's stage line, where he will enter the portal of wonderland. Through Mill Creek and Lake Mary he will view the sublime grandeur and exquisite beauty; snow-capped mountains so steep and rugged that in many places they seem to overhang; crystal lakes and the wildest of torrents, teeming with trout; game in abundance—sagehen, grouse, mountain quail, and, if the tourist be a bold Nimrod, he can find bear to test his courage and deer from which to obtain a juicy steak.

All the way from Landy to Yosemite it is a succession of wonders, such as no other section of the world affords. Everything seems new. The tourist has another existence, and feels as if the Creator had concentrated all the beauties of the universe in a small space of forty miles. That is the way to go to Yosemite and get the most juice out of the orange.

SERIOUS ACCIDENT.

A Man Run Over by a Loaded Wagon.

The Carson Tribune of the 17th inst. says:

Yesterday morning G. Raffeto was coming down from the mountains with a load of wood, and on the hill near Mustang's ranch, near the old mill, he lost control of the team, and the horses came down the grade at a breakneck pace, overturning the load of wood. Raffeto fell forward under the wheels, one of which passed over his breast, the wood falling upon him in a heap. A man who was with him took the wood off him and came to the city about for medical aid. A team was sent out, and he was brought to his home in the afternoon. He was unable to speak, and when he reached the city his life was despaired of. Dr. Guion, who was called to attend the unfortunate man, reports serious injuries to the spine and base of brain, and says that in his opinion the man will die. Raffeto is the owner of the Italian Hotel, north of the depot, in this city, and has a wife and four children.

NATIONAL CAPITAL.

An Eastern exchange says: The capital of the United States has been located at different times at the following places: At Philadelphia from September 8, 1774, until December, 1776; at Baltimore from December 20, 1776, to March, 1777; at Philadelphia from March 4, 1777, to September, 1777; at Lancaster, Pa., from September 27, 1777, to September 30, 1777; at York, Pa., from September 30, 1777, to October 1, 1777; at Philadelphia from July 2, 1778, to June 30, 1778; at Princeton, N. J., from June 30, 1778, to November 20, 1778; at Annapolis, Md., from November 27, 1778, to November 30, 1778; at Trenton from November, 1778, to January, 1779; at New York from January 11, 1779, to 1790; then the seat was removed to Philadelphia, where it remained until 1800, since which time it has been at Washington.

Fine Copper Prospect.

The Silver State says: H. T. Long & Co. of Golconda have struck a body of ore which assays 20 1/2 per cent. copper, and carries some silver. The company believes it to be the finest prospect in the country, the Adelaide not excepted. Mr. Long has shipped two sacks of the ore to Argo, Colorado, and to Salt Lake City, to have a fair test made, and if it proves that it can be worked advantageously, shipments will be made immediately.

Plant a Treelet.

Says the Needles Bazaar: Many good sensible citizens of the town are continuing to plant shade trees.

That's right. Keep up the good work as long as a leaflet will bud out or a rootlet bury in the soil, for the shade thereof will shelter the old drunkard from the scorching sun, and twigslet will grow into developed switchlets with which the kidlet may be castigated.

Justice Court.

This morning Justice Young allowed Pat McCairn, arrested for shooting the Italian sheep herder last Tuesday, to be taken to Storey county for trial, as the offense was committed in that county.

Indian Jim was arrested for drunkenness and two white men suspected of an attempt to rob, were also arrested by officer Nash.

A VALUABLE BOOT.

An Unexpected Find of Two Thousand Dollars.

Said an old timer: "I once made a pretty good raise where I first thought I had found a dead man. I was prospecting down in Amador county, Cal. One day I went up a creek about a mile and seated myself on a rock to rest. Across the stream, on the opposite bank, were the remains of three or four old cabins. Some of these had almost tumbled into the creek from the wearing away of the ground on that side. I observed that part of the fireplace of a near cabin had tumbled down the bank toward the creek, and that the foot of an old gum boot was sticking out of the dirt. It seemed to project from beneath the stones forming the hearth of the old chimney. I thought it strange that any man should have laid his hearth over an old gum boot. Then it occurred to me that some man might have been murdered and buried under the hearth."

"Crossing the creek to the old chimney, I found that the foot of the old boot projected from under a large flat stone that was still in place. I lifted the stone and found that there was only one boot there, and no sign of a human skeleton nor bones of any kind. I kicked the old boot down the bank, and then took a pan of dirt and ashes out of the old fireplace, as I had in several instances made pretty fair strikes in old hearths, for it is well known that the early miners were often careless, and lost a good deal of the gold in resting it on the quicksilver it contained on shelves. As I was passing down the bank I came to the old boot, and, in passing, gave it another kick, sending it almost into the creek. It landed leg down hill, and from the end poured a golden shower of nuggets and dust. In a moment I threw the dirt out of my pan and reversed the boot over it, when out tumbled two large buckskin bags filled with gold dust. So long had the treasure lain concealed under the hearth that the strings with which the bags were tied had rotted, and one gave way under the kicks I had bestowed upon the old boot. When all the gold was gathered up I found that I had nearly \$2,000."
